To Whom It May Concern:

I'd like to give my highest recommendation to Centerpoint Construction. Having worked with Centerpoint in the past I knew they would be the perfect shell contractor for our most recent complex oceanfront home. They performed expertly from beginning to end on a high profile 28,000 sq. ft. oceanfront home in Juno Beach, Florida which included hundreds of auger cast piles, basement, difficult beam construction, cast in place concrete decks and challenging roof carpentry.

Over the past several years we have been involved with multiple large custom residential projects located in South Florida and Centerpoint has always performed with the highest quality workmanship, safety, speed and professional structural experience. There is no structural system or challenge they haven't seen and overcome.

The entire group of Centerpoint team members are professional and committed to quality and safety.

Respectfully,

Albert A. Gargiulo, P.E.
